Important Information

Please note that the prices shown are "from" and the amount charged for each repair or alteration is individual and is reflective of the time involved to carry out top quality work. In most instances we can give a free no obligation quotation before any work commences. Whilst we hold most common items in stock from time to time we need to order items which can delay our usual time frames. Most repair and alterations are carried within 1 week however there is an express service at an additional charge. We will endeavour to match the colour of replacement items but unfortunately it is not always possible to get an exact colour replacement.
